

Get found first in Miami — in Google *and* in AI search.

You've built a solid 10-year business almost entirely on referrals. The problem is that referrals leave your revenue tied to the weather — busy after a hurricane, quiet in between. This gives you a second, steady lead source: when a Miami homeowner has water or fire damage and asks Google or ChatGPT "who's the best near me?", your company becomes the answer, every month, storm or no storm.

THE PROBLEM

After 10 years, your company is nearly invisible online. Your website is built on a poor architecture that search engines can't read, and you have just **13 Google reviews** — far too few social proof for a business your age, so you don't show up when new customers search. That's why 100% of your work still comes from referrals and your revenue swings with hurricane season. Meanwhile competitors with stronger profiles get found first, and you never even see those leads.

WHAT WE DELIVER — THE RANK AI GROWTH ENGINE

- ✓ **Review reactivation campaign** — we turn your list of ~182 past clients into a wave of new Google reviews, quickly building the social proof a 10-year company should already have.
- ✓ **Automated review engine** — every new customer is automatically asked for a review going forward; 5-star ratings go straight to Google while anything lower is caught privately first, so your rating keeps climbing and stays protected.
- ✓ **Brand-new, conversion-built website** — a modern 250-page site with the correct architecture, covering every service across your Miami service area. Included at no extra cost.
- ✓ **AI Search Optimization** — schema and structure engineered to get your company read and cited by name in ChatGPT, Gemini, and Google for local restoration searches.
- ✓ **Complete Google Business Profile management** — full optimization and consistent posting to own the Google Maps 3-pack where nearby customers search.
- ✓ **Ongoing content engine** — 2 blogs/week plus YouTube videos that build the topical authority Google and AI reward.
- ✓ **24/7 AI receptionist & call tracking** — every new-lead call answered and captured, so referral season and storm surges never slip through.
- ✓ **Google LSA management** **OPTIONAL** — when you want leads immediately, we run your Local Service Ads directly at true cost — real jobs, not resold leads.
