

Get Restoration Xpress found first — in Google *and* in AI search.

When a South Florida homeowner has water, fire, or mold damage, they ask Google and ChatGPT "who's the best near me?" — and the AI names one company. Our job is to make that company Restoration Xpress, own the Google Maps results across Davie and the surrounding area, and feed you a steady stream of jobs. And because we're confident it works, your first two weeks are on us.

THE PROBLEM

AI assistants have quietly become the new front door for "near me" searches, and they only recommend businesses built with the right content, reviews, citations, and structured data behind them. Your current site is dated and built on a framework search engines and AI tools struggle to read — so no matter how good your work is, competitors with stronger profiles get recommended first, and you never even see the lead.

WHAT WE DELIVER — THE RANK AI GROWTH ENGINE

- ✓ **Brand-new, conversion-built website** — a modern 250-page site with the correct architecture, covering water, fire, and mold across your South Florida service area, with clickable phone numbers and lead capture built in. Included at no extra cost.
- ✓ **AI Search Optimization** — JSON-LD schema and structure engineered to get Restoration Xpress read and cited by name in ChatGPT, Gemini, and Google for local restoration searches.
- ✓ **Review reactivation + automated review engine** — reach your past customers to build your Google review volume fast, then keep new reviews coming in automatically after every job (5-stars to Google, lower ratings caught privately first).
- ✓ **Complete Google Business Profile management** — full optimization and consistent posting to own the Google Maps 3-pack where nearby customers search.
- ✓ **Ongoing content engine** — targeted blogs, FAQs & YouTube videos that build the topical authority Google and AI reward.
- ✓ **24/7 AI receptionist & call tracking** — every lead answered, booked, and attributed, day or night.
- ✓ **Google LSA management** **OPTIONAL** — when you want leads immediately, we run your Local Service Ads directly at true cost — real jobs, not resold leads.
- ✓ **Live analytics dashboard** — real-time geo-grid map rankings + AI-visibility tracking, so you see exactly where you stand.
